

PREMIUM E-MAIL ACCOUNTS \$5 PER MAILBOX PAID ANNUALLY

Each Dumas Web Design web domain or hosting account includes a standard e-mail with limited 100 mb of storage. However, it's very easy to reach those limits due to the photos, videos and attachments that people are sending more and more, all which require lots of storage capacity. When you do reach your storage limit, your e-mail freezes, bouncing your customer's e-mails back until you spend the time to clear up your mailbox. Don't risk losing a potential customer due to their inability to reach you!

Premium E-mail Accounts offer:

- 256-Bit Encryption: This helps keep your e-mail contents and attachments private and your personal information protected.
- SMS/Text-Mail Service: Web-based e-mail subscribers can instantly send both text messages and standard e-mail.
- Greeting Card Templates: Easily send a card to a friend or colleague without having to deal with an outside web site's pop ups and potential spam.
- Fraud Protection
- Auto-Save
- Spam Protection
- Virus Protection
- Desktop Notifier: Instant notifications while you're working that you have a new message.
- Preferred Sender: Helps you designate e-mail contacts you most often use as important and allows grouping to help keep you better organized.
- SMTP (250/addresses): Allows 250 outgoing e-mails per day.
- Message Preview
- Drag & Drop Messages
- Message Highlighting
- Message Filtering
- FREE Webmail including PDA/Handheld & Light versions
- BlackBerry® compatible: Your device and e-mail service synchronize automatically to display the same messages.
